Re: Courage, determination, patriotism

My congratulations and respect for your stance and actions in the recent and ongoing controversy with the (Federal) Bureau of Land Management.

The current and future implications are hugely significant: States' Rights; Freedom of Speech; privateering and profiteering by our State and Federal elected representatives; (Senator Harry Reid, his son, Rory and the prospective Chinese "solar farm"); probable exploitation of oil and mineral resources; whether *We the People* will elect Sheriffs and other local, State and Federal officials who have sworn to, and will uphold, our Sacred Constitution and Bill of Rights. The total issue is not yet resolved. We must forever remain vigilant and hold their feet to the fire!

My wife, Irene, and I, and another local **Oath Keeper** (\*) were ready to roll to your aid and support in our well-provisioned motorhome on Tuesday morning, April 15<sup>th</sup>. Fortunately, as reported by Fox News this evening, that will not be necessary *at this time*. And where were the other news agencies?

Very respectfully and proudly,

*Weldon C. Travis*

(\*) **Jim** (and Clover "Honey") **Jacobs**
